## **ALLOWANCE**

This action is in response to Applicant's after-final amendment filed on 10/25/2011.

Applicant amends claims 1, 11, and 21 and previously cancelled claims 4, 5, 14, 15, 24, and 25.

Accordingly, Applicant presents claims 1-3, 6-13, 16-23, and 26-30 for further examination.

### **I. ALLOWABLE SUBJECT MATTER**

Claims 1-3, 6-13, 16-23, and 26-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 11, and 21 are directed to a method, system, and medium directed to searching for a services using a lookup message to a space specifying desired characteristics of documents (which represents a service advertisement) stored in the space. The claims recite a two-step process for accessing a service.

First, the client receives a lookup response indicating document identifiers that match the desired characteristics and obtains a service advertisement from the space where the advertisement is a document listed in the lookup response.

The advertisement comprises a uniform resource identifier and a markup language schema for a respective service. And second, the client utilizes the uniform resource identifier and schema to access the service. The prior art does not disclose this two-step process in combination with the other features described in the claim. .

The closest prior art of record describes a client searching for services and receiving the services directly from the initial request (e.g., Humpleman, U.S. Patent No. 6546419, column 20

Art Unit: 2452

«line 65» to column 21 «line 8»: returning XML interfaces in response to a request, Graham, U.S. Patent No. 6594700, column 7 «lines 10-32», Srivastava, U.S. Patent No. 7472349, column 2 «lines 52-60»). The prior art however does not disclose a client receiving a response comprising advertisements that match desired characteristics where the advertisement comprises information about a service and the client accessing the service through the information in the advertisement.

For the foregoing reasons, the independent claims are now patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

## **II. CONCLUSION**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892.
